## PROFESSIONAL SUMMARY

Junior Full-Stack Developer with hands-on experience building web applications using PHP/Laravel, Next.js, and modern frontend frameworks. Strong technical foundation in system administration and infrastructure management with proven ability to deliver production-ready solutions.

## TECHNICAL SKILLS

**Development:** PHP, Laravel, Livewire, Filament, Alpine.js, HTML, CSS, JavaScript, Next.js, React, Tailwind CSS, Swift, Git/GitHub **Infrastructure:** Docker, Proxmox, Linux, Grafana, Apple School Manager, Jamf School, PowerSchool, Ubiquiti

## PROJECTS

**PTO Management System** | *Laravel, Filament, Livewire, Docker, Sanctum*

- Developed full-stack PTO management system with employee time-off requests, approval workflows, and balance tracking using Laravel 12 and Filament admin panel
- Implemented secure API authentication with Sanctum, AI integration with Laravel MCP, and deployed using Docker with comprehensive PHPUnit testing suite

**Asset Management System** | *Laravel, Alpine.js, Tailwind CSS, SQLite*

- Built internal IT equipment inventory system managing 500+ devices with CRUD functionality, check-in/check-out workflows, and responsive UI using Alpine.js

**Portfolio Website** | *Next.js, React, Tailwind CSS* | [andrewrobertcollins.com](http://andrewrobertcollins.com)

- Designed and developed responsive portfolio website showcasing technical projects with modern UI/UX design and optimized performance

## PROFESSIONAL EXPERIENCE

**IT Assistant** | Nettle Creek School | Oct 2021 - Present

- Architected technology infrastructure supporting 500+ users with server administration, network configuration, and automated deployment pipelines
- Automated device provisioning using Apple School Manager and Jamf School, reducing setup time by 75% through custom scripting and MDM configuration
- Designed and deployed 40-camera security infrastructure using Rhombus systems across campus within one-week deadline, including network configuration and system integration

**Geek Squad Consultation Agent** | Best Buy | Jun 2018 - Jul 2019

- Diagnosed and resolved complex hardware and software issues across Windows, macOS, iOS, and Android platforms with 95%+ first-call resolution rate
- Provided technical consultation and educated customers on cybersecurity best practices, data backup strategies, and preventative maintenance protocols
- Increased customer satisfaction scores by 20% over six-month period through improved technical communication and service delivery excellence

## EDUCATION

**High School Diploma** | Huntington North High School | 2012
